Standard and Optional Equipment

Standard Equipment
- Adjustable comfortable seat
- Combination dry-type intake air filter
- Power steering
- Pneumatic tyres
- Standard lift mast: lift height h3=3050mm
- Fork arms l=1000mm
- Standard fork carriage
- Multi-functional display
- Adjustable steering column
- Standard container overhead guard
- Standard truck lighting
- Folded rear lighting
- Full-dimension
- Gyro-stabilizers
- Full-interior washer separator
- Pre-heating/cooling (for winter quick cool)

Optional Equipment
- Optional lift height with Standard/Duplex/Triplex mast
- Integrated air filter
- Load levelling
- One or two additional hydraulic circuits available for all mast type
- Various recommended fork lengths
- Additional working lamp
- Oversized steering wheel, 54 tyers
- Special paint

Features

Safety
A large diameter power brake, the unique low center gravity steering axle and the high visibility mast ensure benchmarking safety standards.

Performance
The industrial European hydrodynamic transmission is specifically designed for forklift applications and grants the most efficient transmission of torque and power with optimal fuel consumption.

Comfort
A combined braking and inching pedal, and as hydraulic levers next to the drivers seat ensure a class of it’s own comfort to the drivers.

Reliability
Designed by a 3D modeling system and F.E.M. analysis, the chassis is obtained in a maximum tension and the reliability is underlined by the proven Linde technology which is well known in the market for many years.

Service
The high percentage of customer approved parts ensure a high level of parts availability and accessibility.

Diesel/LPG Forklift Trucks
Capacity 2500 - 3000kg
HT25D/Ts, HT30D/Ts

Other Options Available on Request

Standard and Optional Equipment

Full Suspended Cab
- Parking brake can be actuated and released effortlessly by foot
- Two-speed movements necessary
- Combined braking and an inching pedal

High-Performance Engine Tech
- Latest engine with EU Stage IIIa emission, one of the most powerful engines in the market
- High torque for even hardest applications

Multifunctional Console
- With cup holder and storage compartment
- Multifunction indicator can display truck status, fuel level, etc.
- Well-protected switch button and dashboard (IP 67)

Revolutionary Pedal System
- Parking brake can be actuated and released effortlessly by foot
- Combined braking and an inching pedal

Diesel/LPG Forklift Trucks Capacity 2500 - 3000kg HT25D/Ts, HT30D/Ts

Diesel/LPG Forklift Trucks Capacity 2500 - 3000kg HT25D/Ts, HT30D/Ts
